

**Subject:** Non-Animal Tests

**Date:** Tuesday, June 5, 2007 5:37 PM

Dear ICCVAM,

Please accept/adopt the internationally validated non-animal tests immediately. As an ex-lab worker in various capacities, I strongly support replacing animal testing with the many alternative tests that today's technology has provided. Having been in labs for 10+ years and having many colleagues in various labs I can tell you that it is just not okay to do these tests on animals anymore. We simply don't need to and it is not ethical or clean science.

Thank you,  
Nancy Megna
